

Missouri Mountain Gang is best described as a traditionally based five member bluegrass band that incorporates four lead vocalists including 3 and 4-part harmonies, along with high energy & high entertainment shows. With natural unscripted humor, great traditional and contemporary musicianship, and most of all a strong variety of song selections from which to draw upon, the audience is kept constantly entertained and tappin' their feet.

Song selections range from hard drivin' straight ahead bluegrass to ballads, instrumentals, twin fiddling, even original compositions about people and places in the Ozarks. Plus some of their bluegrass gospel selections have brought an emotional tear to listener's eyes. All these things together provide a show that audiences will remember for a long time. Missouri Mountain Gang members love to interact with the audience, both during and after the show, and have made many long-term friendships as a result. Come see Missouri Mountain Gang, they're just a few hills & hollers away.
